The new lighting plant at the Luth-

Answering your correspondent from North Jackson in last weeks' issue of The Mahoning Dispatch, and directed to me, will state that as a matter of history intoxicants were so freely used (yet rarely abused) when the U.S. constitution was adopted that the term is not used in that organic document, nor were dismissed and 62 divorce and all in the Declaration of Independence nor mooy cases are now pending. This is due in part to the fact thus courts do not compel wives to five with drunker and cruel husbands who fall to support them, nor compel husbands to live in hot water with nagging wives.

Included in that organic document, nor in the Declaration of Independence nor the Articles of Confederation—and by way of digression, allow me to add, that the word "elavery" does not appear in the constitution, nor does the word "brain" or "atomach" appear in the bible. But the Tenth Amendment pro-

Mrs. J. Trains platford the home tax of \$25 on intoxicants is charged by the U.S. and a tax of \$1,000 is charged of her son Charles in Youngstown, Sat- in Ohio. But this tax does not legalize its sale where the people decree other-

wise. Any dictionary will define the word "tavero," and when the present constitution of Ohio was adopted the article referring to taverns really meant prohibition of the traffic. The word "saloon" came into use as meaning "tavern" after the war between the states in 1861-5. So that if taverns were not licensed they could do business by being "taxed" for the privilege. Since then the U.S. Supreme court has decided that "There is no inherent right in a citizen to sell intoxicating liquors by retail. It is not the privi-lege of the citizen of the State or the United States. As It is a business attended with danger to the community,

gin with: "An Act to regulate the EVILS growing out of the sale of intox-icating liquors."

To Whom It May Concern:
As a citizen of this town and inasmuch as I am no doubt in a position to know whereof I speak, in justice to my fellow citizens as well as to myself and in the hope that something will speedily be done to overcome the unjustifiable and uncalled for treatment submitted to the ditizens of Washingtonville in general, by that inestitution known as the Y. & O. R. R. Co., I feel called upon to take this means of bringing a protest before the people as a whole in the sinsere hope that it may ultimately lead to a speedy remedy of the serious effects resulting from the carelessness and indifference on the part of the R R. Co. in not having adequate places of shelter or waiting passengers as all legitimate institutions of this kind should make

every effort to establish. This company has been operating their road now for over a year. No one who has taken any interest in the situation since the opening of this road can doubt for a moment the fact that it has proven very successful financially, no one can conscientiously assert that these people have not had time to es-tablish adequate places of shelter and accommodation for their patrons long ere this and furthermore, no one can doubt for a moment but that the amount of traffic furnished this company by the people of this town has not more than justified the establishment of such places of shelter and there seems to be only one reason why such places have not been provided and that is simply due to the neglect and indifference of to the citizens of this town to have to subject themselves to the conditions that now exist in order to travel via say there should be some speedy remedy of these conditions. In my opinion the Council (the people) should take this question up in a strenuous manner and enter into negotiations with the R. R. Co. at once in an endeavor to secure a satisfactory arrangement whereby passengers desiring to board the cars of said company should have suitable places of accomodation as provided for by law governing such cases. In my opinion the company should run the cars to the depot which would require but from two to three minutes or if this could not be estisfactorily arranged then there should be suitable places established at the different stops AT ONCE, and we as a people, should rise up and demand justice immediately from an institution whose intentions seem to be to ignore the rights of their patrons. Respectfully submitted, BY A CITIZEN.

JAN 6-Margaret, wife of David Lew-is of Westville, died Dec. 30 after long suffering from cancer, aged 49 years.
